BALNEA SHIP 185 - OVAL BATHTUB

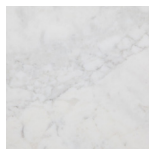

Just as all pieces from the AQUA Collection, this free-standing bathtub is carved solid from a block of stone- seen here in Silver Travertine. The distinct, natural layers of this stone can be appreciated on the inside of the concaved profile as well as from along the outside. In order to guarantee the maximum comfort to the user, it is equipped with a useful tray in teak wood, an ideal wood for wet environments. The tray is perfectly integrated on the bathtub outline. This tub is designed and manufactured in Italy by Vaselli.

CARE & MAINTENANCE

As surface protection against stains, we apply a protective coating to facilitate cleaning and maintain the beauty of the material. We offer two different products: the first is solvent based, FILAFOB, the second is water-based, FILAMP90 ECO PLUS.
